Symbols and What They Mean

Full Sun	Part Sun	All Shade	Part Shade	Humming bird favorite
Drought tolerant	Moderate watering	Water frequently	Pollinator friendly	Butterfly attractor
	Deer Resistant		Rabbit Resistant	

Vines

There are several vines which should interest North Carolina gardeners and landscapers. Vines, when used correctly, can be quite an aesthetic and functional addition to the landscape. Many vines will become perennial landscape additions, especially those planted and allowed to grow on a trellis or an arbor. The structure should get special attention also. Be certain to construct the support structure with weatherproof materials. Use the naturally decay resistant woods such as red cedar or use treated materials. Brick, iron, or concrete are also acceptable as support structures for vines. (NCSU.edu)

Clematis 'Innocent Blush'

- H: 6-8’ W: 12”
- Large 5-7” semi-double dark rose blossoms with lighter pearl pink accents
- Blooms early summer with a second bloom late summer
- Perennial "Queen of the Climbers" will train onto trellises, fences, or arch over doorways
- Root ball must be shaded

Confederate Jasmine
Thrachelospermum jasminoides

- Evergreen vine or groundcover with lustrous dark green leaves
- Fragrant white flowers from May to June and periodically thereafter
- Grows to 20’

Jessamine Combo Pot

Gelsemium s. - Pride of Augusta – and rankinii

- Enjoy beautiful yellow flowers nearly half the year. Great combination of two yellow flowering vines, one with single flowers in fall and spring and the other with fragrant double flowers in spring. Sun Yellow

- Sites with well-drained and moderately fertile soil

Coral Honeysuckle ‘Major Wheeler’
Lonicera sempervirens

- 3-12’H 1-2’W
- Part sun to full sun in normal well drained soil.
- The trumpet shaped blooms cover this deciduous vine as it twines up a fence or trellis.
- Drought, heat and humidity tolerant.
- Hummingbird magnet

North Carolina Native Plant

Clematis ‘Cardinal Red'
Clematis

- H: 6-10’ W: 12”
- Large 4-6” crimson red blossoms with contrasting cream colored antlers
- Blooms July – October
- Perennial "Queen of the Climbers" will train onto trellises, fences, or arch over doorways
- Root ball must be shaded

Clematis ‘The President'

- H: 6-10’ W: 12”
- A large-flowered variety, 6"-8" in diameter. Deep violet-blue flowers with prominent dark reddish-purple anthers
- Blooms from May-June and again in September
- Perennial "Queen of the Climbers" will train onto trellises, fences, or arch over doorways
- Root ball must be shaded
